

Forestry **Establishment and Pruning** Level 2

Are you an outdoors,
hands-on person?
Would you like a career
in a growing industry?

Our pine forests aren't just left to grow on their own - they need workers to plant and maintain them by knowing which trees to remove and which ones need to be left to grow.

This nationally recognised qualification provides the foundation skills you need to plant and tend to forests. You'll learn mainly out in the bush, where you'll get some real experience working with other forestry professionals.
